

Sedum tray
500125

ADVANTAGES

- Economical solution
- Guaranteed crowd association reared under controlled conditions, providing a beautiful green roof
- Resistant, hardy vegetation
- Pre-grown vegetation allows for immediate, rapid planting
- Provides complete plant cover and reduces the risk of erosion thanks to a well-developed root system
- The tray design ensures quick installation.
- Due to the tray design, no additional erosion control is required on sloped roofs.
- Can be installed regardless of the season.
- With the professional support of our company, self-execution is possible.
- Due to its weight, it can be used on professionally constructed wooden and steel lightweight structures.
- During possible roof maintenance or waterproofing repairs, it can be locally dismantled and reassembled with minimal cost and without damaging the vegetation and trays.
- During long transportation, the chance of plant damage is minimal with the optional use of spacers.

DIADEM® BUILD-UP

- DiaTray sedum tray (sedum + SEM growing media)
- VLU-300 mechanical protection geotextile
- root-resistant waterproofing membrane
- additional layers

SPECIFICATION

Tray of Sedum includes a mat of at least 6-7 different Sedum species. Dimensions: 47,5 x 47,5 cm, height: 8-10 cm.

Product: DIADEM® DiaTray
Producer's certificate: A.P.P. Kft.
Website: www.diadem.com

TECHNICAL DATA

Sedum species, number of species:	6-7*
Dimension (cm):	47.5 x 47.5
Height (cm):	8-10
Weight (kg/m ²):	approx. 20 - 22,5 (dry condition: approx. 13.8)
Vegetation coverage (%):	min. 80
Delivery:	on pallet
Storage:	can be stored for a long time when removed from the pallet without installation

*As a result of changes in climatic conditions, 1 or 2 of the species planted may become dominant, while some species may disappear.

Distribution of sedum varieties planted:

Sedum Hispanicum: 80%
Sedum Album: 10%
Sedum Acre Golden Carpet: 5%
Sedum Sexangulare: 5%
